

■ Digital Audio player

aigo

A208

The A208 is a compact digital audio player that can be used to store up to 2,000 songs or 2GB of data. It supports various audio formats such as MP3, WMA and even secure DRM files and these can easily be transferred from your PC via the built-in USB connector. The battery life lasts up to 10 hours in playback mode. Other features include a cool blue backlight LCD screen which displays the name of the tracks and artists while playing and 6 preset equalizers. The Aigo A208 is very easy to use and the video tutorial provided makes life easier for set up and files transfers.

10 hour battery life

Voice records meetings and notes

Compact design

Supports DRM files
